insulation for round-type hydraulic separators DN200, 60 mm PUR foam, galvanised sheet steel jacket

Thinking solutions.

Article number: 4206948

Features

Type	DN200
Insulation strength	60 mm
Insulation material	PUR foam
Insulation material fire protection class according to DIN 4102	B1
Outer jacket fire protection class according to DIN 4102	A1
Outer material	galvanised sheet steel jacket
Thermal conductivity	0.026 W/m*K
Max. ambient temperature	120 °C
Connection	DN100
Weight	14.60 kg

Description

Thermal insulation consisting of interlocking half-shells with end pieces. Customised and precisely fitting cut-outs for all connection spigots are provided as standard. The half-shells are fitted using stainless steel clamping straps and quick-release screw fasteners. This allows for easy assembly and also disassembly for inspection purposes.

The thickness of the insulation layer complies with the current GEG (Building Energy Act). The insulation is not diffusion-tight.
