

# Exiso DN 80-100 (88.9-114.3), thermal insulation for Ex-separator

Thinking solutions.

Article number: 9254841

## Features

|                       |                        |
|-----------------------|------------------------|
| Type                  | DN 80-100 (88.9-114.3) |
| Colour                | black                  |
| Insulation strength   | 30.5 mm                |
| Insulation material   | EPP                    |
| Operating temperature | 110                    |
| Diameter              | 270 mm                 |
| Height                | 557 mm                 |
| Weight                | 0.55 kg                |

## Description

Exiso  
Thermal insulation for Exvoid micro-bubbles or Exdirt dirt separator.  
Comprising two shape and temperature-stable, adaptable, form-fitting rigid foam semi-shells with a folding closure or clamping strap.
