

Fillsoft Zero FZP 3000, mixed bed resin cartridge for Fillsoft I & II housing

Article number: 9125662

Features

Type	FZP 3000
Colour	grey
Capacity	3000 l x °dH
Max. perm. operating temperature	40 °C
Storage temperature	5 - 40 °C
Max. perm. operating pressure	8 bar
Diameter	76 mm
Height	513 mm
Weight	1.50 kg

Description

Fillsoft Zero cartridge

Mixed bed resin cartridge for filling and make-up water softening, fitting in the Fillsoft I or II cartridge housing

Comprising cylindrical polypropylene cartridge filled with mixed bed resin for demineralisation of filling and make-up water according to VDI 2035 and/or manufacturer specifications in hot water based heating systems according to DIN EN 12828. Level of demineralisation down to a conductivity of 10 µS/cm.
