New: Storatherm Aqua Inox

Stainless steel hot water storage tanks

**Durable
& robust**
for the highest quality
requirements

→ Corrosion-resistant and low-maintenance,
no sacrificial anode required

→ High energy efficiency thanks to
rECOflex® insulation system

→ Low weight for easy transport and
installation

Storatherm Aqua Inox 150 – 500 litres

Technical features

- Upright tank for all heating systems with a bare-tube heat exchanger
- Made of high-quality stainless steel
- rECOflex® insulation system with foil jacket
- With 1 ½" coupling
- Permissible operating pressure:
heating water 10 bar; potable water 10 bar
- Permissible operating temperature:
heating water 130 °C; potable water 90 °C

Type overview Storatherm Aqua Inox

Model	Art. No.	Volume [l]	Ø D [mm]	Height H [mm]	Tilted dimension [mm]	Weight [kg]	Heating surface [m²]	Heat losses		EEC*

*EEC = Energy Efficiency Class

Exclusive to Reflex

With its closed-pore structure and tiny, microscopic cells, the innovative rECOflex® thermal insulation system achieves an exceptional level of thermal insulation with minimal material thickness.

The Reflex ErP App as a digital aid

This App ensures that you have all necessary values for energy efficiency in time – individually and well structured, depending on the building situation, the devices to be installed and the budget specified.
