

bus module Ethernet, expansion for Control Basic and Touch

Thinking solutions.

Article number: 8860300

Features

| | |
|------------------------------|-----------|
| Type | Ethernet |
| Colour | green |
| Type of protection | IP 54 |
| Electric connection | 230V/50Hz |
| Number of outputs - analogue | 0 |
| Number of outputs - digital | 0 |
| Number of inputs - analogue | 0 |
| Number of inputs - digital | 0 |
| Height | 200 mm |
| Width | 180 mm |
| Depth | 75 mm |
| Weight | 1,90 kg |

Description

Bus Module

Bus module for conversion of the information such as operating status or variable network parameters from the control interface (RS 485) of Variomat, Reflexomat or Servitec with Control Basic or Touch controller into the data telegram. Everything in its own plastic housing for direct integration in the corresponding control unit or optionally for wall mounting.

Installation:

Plastic switch cabinet housing can be inserted in the provided mounting slot of the control unit, as an alternative to on site wall mounting or installation in other switch cabinets.

The wiring to the control unit is likewise performed on site. Commissioning and wiring does not form part of the scope of delivery

The cable connection to the microprocessor control unit includes its RS 485 interfaces and must be site-provided analogously to the power supply. The cable connection to the microprocessor control unit includes its RS 485 interfaces and must be site-provided analogously to the power supply.

On the Ethernet side an RJ 45 connector is available for on site connection to a 100-Base TX network. Data exchange can be called up via Ethernet/IP, Modbus/TCP and HTTP protocols. Likewise the representation of the report html page.
