insulation for hydraulic compact hydraulic separators 450/250, 100 mm mineral wool, galvanised sheet steel jacket

Thinking solutions.

Article number: 9120220

Features

Type	450/250
Insulation strength	100 mm
Insulation material	mineral wool
Insulation material fire protection class according to DIN 4102	A1
Outer jacket fire protection class according to DIN 4102	A1
Outer material	galvanised sheet steel jacket
Thermal conductivity	0.038 W/m*K
Max. ambient temperature	130 °C
Weight	42.50 kg

Description

Thermal insulation consisting of interlocking half-shells with end pieces. Customised and precisely fitting cut-outs for all connection spigots are provided as standard. The half-shells are fitted using stainless steel clamping straps and quick-release screw fasteners. This allows for easy assembly and also disassembly for inspection purposes.

The thickness of the insulation layer complies with the current GEG (Building Energy Act). The insulation is not diffusion-tight.
