

Reflex Hydroflow Heating water mixer

Article number: 9583563

Features

Pressure gauge	X
Max. ambient temperature	95 °C
Operating temperature	95 °C
Weight	1.17 kg

Description

Reflex Hydroflow Heating Water Mixer

for installation in systems with high buffer temperatures, in the buffer flow to the mains water station. Used to add colder heating water from the buffer tank from a colder layer in order to reduce the flow temperature in the mains water station and therefore achieve an even higher control quality of the hot water, preferably to be used in systems with solar thermal energy or solid fuel boilers, for example.
