Description

Male thread connection set

For simple professional installation and maintenance of expansion vessels in heating, cooling and water supply systems for non-potable water.

Comprising pipe connection piece with flat gasket vessel connection fitting, 1/2" filling/drainage cock and cap ball valve with safe shut-off in accordance with DIN EN 12828. Especially suitable for floor-standing expansion vessels (MAG) with flat sealing male threaded connection, e.g. Reflex N, G, S or Reflex DE, DC.
