

# Longtherm Protect Cooling R\_B-31 from elastomer foam

Thinking solutions.

Article number: 8296200

## Features

|                                    |                |
|------------------------------------|----------------|
| Type                               | R_B-31         |
| Colour                             | black          |
| Insulation strength                | 20 mm          |
| Insulation material                | elastomer foam |
| Suitable for max. number of plates | 280 St.        |
| Thermal conductivity at 0°C        | 0.033 W/m*K    |
| Thermal conductivity at 20°C       | 0.035 W/m*K    |
| Thermal conductivity at 40°C       | 0.037 W/m*K    |
| Operating temperature              | 110 °C         |
| Height                             | 334 mm         |
| Width                              | 163 mm         |
| Depth                              | 285 mm         |
| Weight                             | 0.45 kg        |

## Description

Longtherm Protect Cooling  
Cold insulation comprising two elastic and diffusion-tight elements for the front and rear side in combination with a jacket that can be shortened to optimally match the plate variety, with the elements being joined together using a sturdy self-adhesive connection.
