

Buffer tanks

Storatherm Heat buffer storage tank for heating and cooling systems

H 300/1 – 5,000/1

HF 300/1 – 2,000/1

HF 500/2 – 1,500/2

Technical Features

- high-grade S235JRG2 (St 37-2) for heating and cooling applications
- tank not treated inside, plastic-coated outside
- insulation factory fitted
- fleece insulation with foil jacket, not diffusion-tight
- max. permissible operating overpressure:
→ tank 3 bar (1.500l 6 bar)
- max. permissible operating temperature:
→ tank 95 °C

Type overview

H.../R
buffer tank with cleaning opening without insulation for cooling applications. suitable diffusion-tight thermal insulation must be provided by the user.
without insulation

HF.../R
buffer tank with cleaning opening and insulation

insulation
up to 1,000 l: 100 mm fleece insulation with foil jacket, removable
from 1,500 l: 120 mm fleece insulation with foil jacket, removable

HF...
buffer tank with insulation, without service flange

insulation
up to 1,000 l: 100 mm fleece insulation with foil jacket, removable
from 1,500 l: 120 mm fleece insulation with foil jacket, removable
